

In the Specification:

Please change "agamid" to --aramid-- in the last line of the last paragraph on page 7 as follows:

Step (d): Epoxy resin is mixed with reinforcing fiber materials in a ratio of 9 to 1 and the mixture is cast onto the first fiber mesh (30A) which was impregnated with the epoxy resin (a first casting process). The mixture includes the epoxy resin, a small amount of cement, silica and chopped reinforcing fiber material. The reinforcing fiber material is a material selected from the group consisting of glass fiber, carbon fiber, ~~agamid~~ aramid fiber and Kevlar fiber or the mixture thereof.
